# ***Harnessing the Sun for 50 Years***

---

## **Commemorating the Golden Jubilee of Solar Photovoltaics in India**

India's solar photovoltaic journey has evolved from early fabrication and utilization efforts to gigawatt-scale deployment and manufacturing that now underpin national energy transition ambitions.

IIT Bombay invites you to a one-day commemoration Event marking 50 years of solar PV in India (1976–2026). The pioneers who worked on solar PV in India during the early years will share their perspectives on the developments through the years.

**Indian Institute of Technology Bombay**  
**Wednesday, January 28, 2026**
